Compliant with Procurement Policy Note 06/21

Supplier Overview

- **Supplier Name:** Cloudgap Ltd
- **Publication Date:** November 2026

Commitment to Achieving Net Zero

Cloudgap Ltd is committed to achieving Net Zero emissions by **2045**.

As a specialist cybersecurity and AI governance consultancy, Cloudgap Ltd recognises the critical importance of mitigating our environmental impact. We are dedicated to reducing our greenhouse gas (GHG) footprint across all direct and indirect operations through efficient working practices, modern technology choices, and sustainable operational policies.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that were produced in the past prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: FY 2025–2026

EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	**0.0**
Scope 2	**1.2** *(Purchased electricity for operational activities and remote working support)*
Scope 3 *(Included Sources)*	**3.5** • *Category 4: Upstream transportation and distribution* (0.2)

	• *Category 5: Waste generated in operations* (0.1) • *Category 6: Business travel* (2.0) • *Category 7: Employee commuting* (1.2)
Total Emissions	**4.7**

Current Reporting Year

Note: As FY 2025–2026 represents Cloudgap Ltd's inaugural Carbon Reduction Plan reporting period, the Baseline Emissions and Current Reporting Year figures are identical.

Current Year: FY 2025–2026

EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	**0.0**
Scope 2	**1.2**
Scope 3 *(Included Sources)*	**3.5**
Total Emissions	**4.7**

Emissions Reduction Targets

To continue our progress toward achieving Net Zero by 2045, Cloudgap Ltd has established targeted emission reductions for the next five years.

We project that total carbon emissions will decrease from **4.7 tCO_2e** to **3.0 tCO_2e** by **2031**. This represents an overall reduction target of approximately **36%** over the next five-year period.

Progress and Target Projection:

- **2025–2026 (Baseline):** 4.7 tCO_2e
- **2031 (Target):** 3.0 tCO_2e
- **2045 (Net Zero Target):** 0.0 tCO_2e

Carbon Reduction Projects

Completed & Ongoing Environmental Management Measures

The following environmental management measures and policies are implemented as part of our core business operations:

1. **Remote-First Working Model** Cloudgap Ltd operates primarily as a remote-first organisation. By eliminating daily office commuting for the majority of our staff and associate bench, we significantly restrict Scope 3 emissions associated with vehicle travel and transit infrastructure.
2. **Cloud-First & Green Computing Infrastructure** All internal IT infrastructure, client management systems, and consultancy tools are hosted entirely in the cloud. We exclusively partner with major cloud service providers that have committed to 100% renewable energy procurement for their data centres.
3. **Sustainable Travel Policy** Client engagements are prioritised for virtual delivery wherever feasible. When on-site client visits are necessary, staff are mandated to prioritise public transportation (rail, underground, public buses) over private car journeys or domestic flights.
4. **Zero-to-Landfill IT E-Waste Disposal** All retired hardware and IT assets undergo strict secure data destruction and are processed via certified WEEE recycling partners to ensure zero e-waste enters landfills.
5. **Sustainable Procurement** We prioritise suppliers and hardware vendors with strong environmental, social, and governance (ESG) credentials and energy-efficient product lines.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard and use the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the GHG Protocol Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the Founder and executive leadership of Cloudgap Ltd.

Signed on behalf of Cloudgap Ltd:

Pritesh Hathi Founder, Cloudgap Ltd Date: November 2026
